WORK EXPERIENCE

Freelance Web Developer

Present

Self-Employed

Jan 2025 - Present

- Built and updated websites for small businesses and personal projects.
- Worked directly with clients to understand their needs and turn ideas into websites.
- Handled both design and coding, making sure websites looked good and worked well.

Personalized Internet Ads Assessor

United States

TELUS International

Aug 2022 - Jan 2023

- Reviewed online ads to check if they were relevant and useful for users.
- Gave feedback on ad content to help improve the quality of search results.
- Worked independently, following guidelines to ensure accurate and fair assessments.

PROJECT EXPERIENCE

Document Management System

Role: Software Developer | Capstone Project

Jan 2025 - May 2025

- Built a web-based platform to upload, manage, and track documents efficiently.
- Included key features such as OCR, version control, document annotations, audit trail, advanced search, and role-based access.
- Designed based on ISO/IEC 25010 software quality standards.

Smoke Alarm Detection System

Role: Full-Stack Developer

Jan 2024 - May 2024

- Built an IoT-based smoke and temperature detection system using ESP8266, MQ2, and DHT11 sensors.
- Created a mobile app with Flutter for real-time monitoring, alerts, and notifications.
- Used Firebase to store sensor data, log events, and send alerts to users remotely.

E-commerce Web Platform System

Role: Front-End Developer

Aug 2023 - Dec 2023

- Developed a user-friendly online store with product browsing, shopping cart, and checkout functionality.
- Integrated PayPal for secure online payments and real-time inventory tracking.
- Added admin features for product management, user authentication, and order handling.
